

Comparing WebPageTest and Catchpoint Internet Performance Monitoring (IPM) Platform

Making an Informed Choice

WebPageTest: the Gold Standard
in Web Performance Testing

WebPageTest Starter Plan

- ✓ Ad-hoc Synthetic Browser Testing for Dev
- ✓ Accurate web performance metrics
- ✓ Multiple browser types and connection speeds
- ✓ Test from both desktop and mobile
- ✓ Global testing locations
- ✓ Film strip and Video
- ✓ 60-day test history retention
- ✓ Understand potential page improvements with Opportunities
- ✓ Custom scripts for testing specific actions
- ✓ Request Maps for clear visualization of every request coming in

WebPageTest Pro

Everything in Starter Plan, plus:

- ✓ Priority testing to retrieve your test results faster
- ✓ Use Experiments to test the potential impact of Opportunities without changing code
- ✓ Harness the power of automation with WebPageTest API:
 - ✓ Use pre-built integrations including GitHub Action and Node.JS Wrapper to integrate seamlessly with existing CI/CD tooling
 - ✓ Run tests within VSCode
 - ✓ Collaborate within Slack
 - ✓ Build visualization dashboards with tools like Grafana
- ✓ 9 additional US locations
- ✓ Private Tests only visible to you within your account

Catchpoint Internet Performance Monitoring (IPM) Platform

- ✓ Schedule tests with varied parameters
- ✓ Leverage WebPageTest's synthetic browser testing methods to **monitor, trend, and compare key performance metrics** across locations, devices, and browsers with historical data
- ✓ Advanced web perf monitoring with AI-powered smartboards, dashboards, and built-in visualizations:
 - ✓ Track Core Web Vitals, Lighthouse scores, JavaScript metrics, and 3rd party performance over time
 - ✓ Collaborate with QA and Dev teams in a single portal for fixing perf issues
- ✓ Leverage RUM (including INP metric) to paint a precise picture of your user base and view both lab and field data in one platform

WebPageTest Starter Plan

- ✓ Carbon control: Measure your website's real-time carbon footprint
- ✓ Start for free! (150 monthly test runs included)

Visit webpagetest.org for more information.

WebPageTest Pro

- ✓ Plans start at \$15/mo
